3	Microphone	Captures audio during video chats
4	USB Cable	Connects to your computer's USB port
5	Hinged lever	Use this to mount your webcam to an LCD display

Installing your webcam

Your webcam is Plug & Play capable, so no installation is needed. However, for Windows® 7, Windows Vista®, or Windows XP® users, installing software will allow full functionality of the webcam's features. Install the software and drivers before connecting your webcam. Software support is not available for Mac systems.

Note: This webcam is compatible with Mac OS X 10.4.11 or higher. The webcam uses the general functionality provided by OS X and, as such, is limited.

To install your webcam on your Windows PC:

- 1 Insert the Installation CD into your CD or DVD drive. The CD should start automatically. If it does not, double-click the **My Computer** icon (or click **Start**, then click **My Computer**), right-click the CD-ROM/DVD-ROM drive icon, then click **Autoplay**.
- 2 When prompted, connect your webcam's USB cable to your computer.
- 3 If the *Found New Hardware Wizard* opens, click **No, not this time**, then click **Next** on this and all subsequent windows.
- 4 Mount your webcam on your monitor by placing the camera head on top of the monitor with the mounting lip over the front of the monitor and the hinged lever on the back.

Using your webcam

To capture images and videos, add video effects, enable Desktop Share or Media Show features on your Windows PC:

Click **Start, Programs** (or **All Programs**), **Rocketfish, Live! Cam, Live! Central**.

Note: For details about using your webcam's software, click **Help** from the application's main window.

One-year limited warranty
